# OVERVIEW

**FIND A BETTER YOU. KEEP THE ESSENCE.**

EduDo has developed a **cutting edge** mobile learning platform that allows its users to create and upload short user-generated interactive videos to share knowledge, experience and wisdom with other **EduDo** users and the community.

# DESCRIPTION

**EduDo** is a mobile learning platform with short insightful user-generated content. User-generated contents are composed of short clips or images that operate like building blocks of knowledge. The forum is meant to provide learning materials for any topic. We are a seamless self-development platform that is integrated into your life. Our users, experts and influencers create the content. **EduDo** offers an exciting, engaging and easy way to enhance your knowledge in tens of different categories from business to food and art to technology.

# HOW IT WORKS

**EduDo** brings topics that usually fill online courses, social media topics, life hacks, tricks and another piece of content into bite-sized video insights that don't take longer than 3 minutes to watch and, therefore, work anytime and anywhere.

Every short insight contains a pop quiz that aims to test your knowledge and understanding from the video you watched. As users watching the contents and passing quizzes, they will collect achievements and have a chance to earn in future.
