MOBILE APP OF THE YEAR

Product Hunt

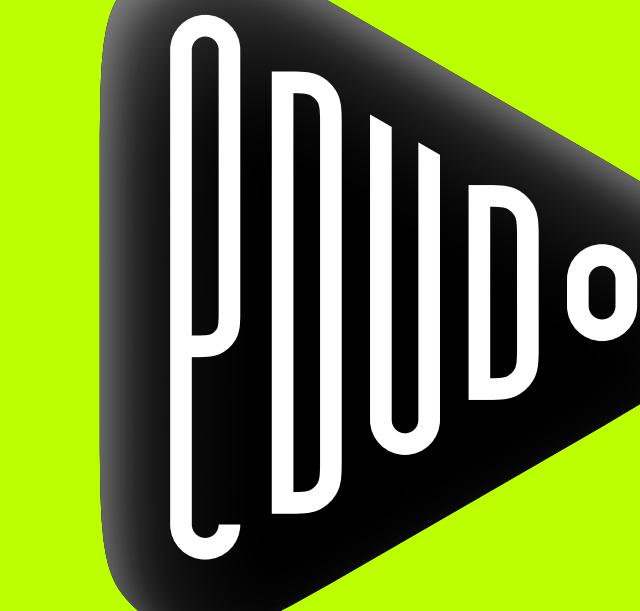

A large, shiny golden trophy shaped like a stylized mustache or a pencil with a face. It has a wide, smiling mouth and two small ears on top. The trophy is mounted on a red base. In front of the trophy, the word "WINNER" is written in a bold, white, sans-serif font, tilted slightly upwards and to the right.

WINNER

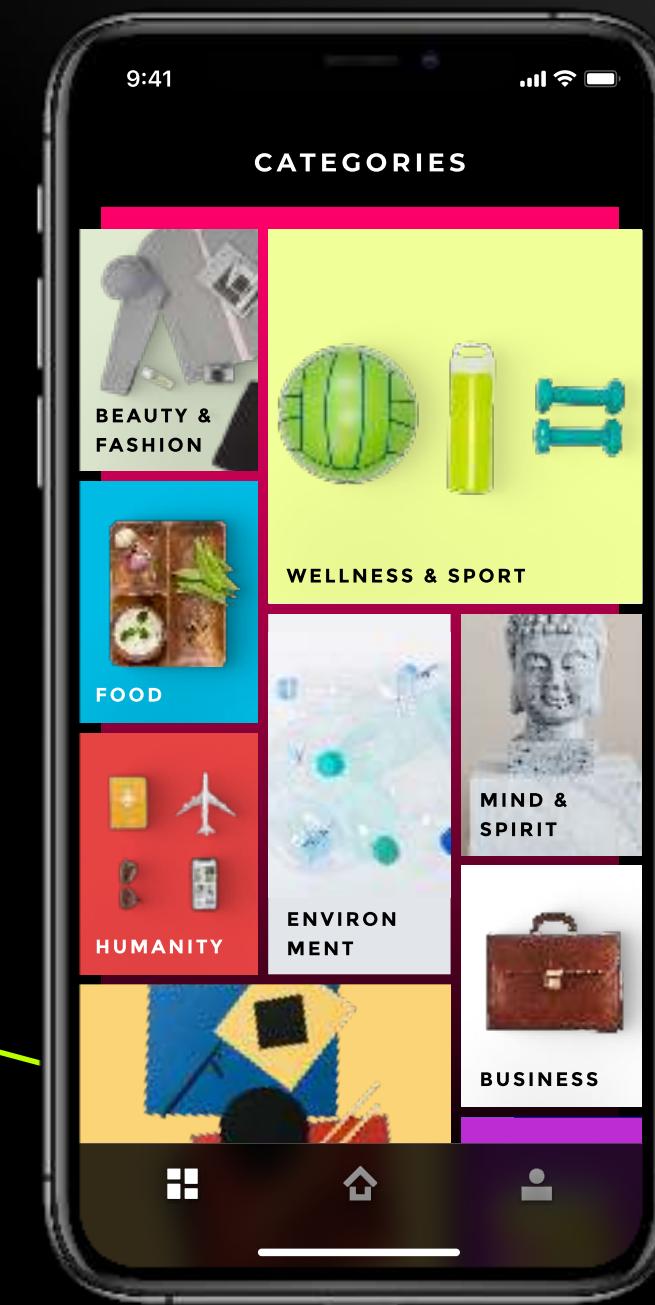

**EduDo is a mobile platform
with bite-sized learning
user-generated videos.**

**We are all about 3E-learning -
Exciting, Engaging, Easy
watching on-the-go.**

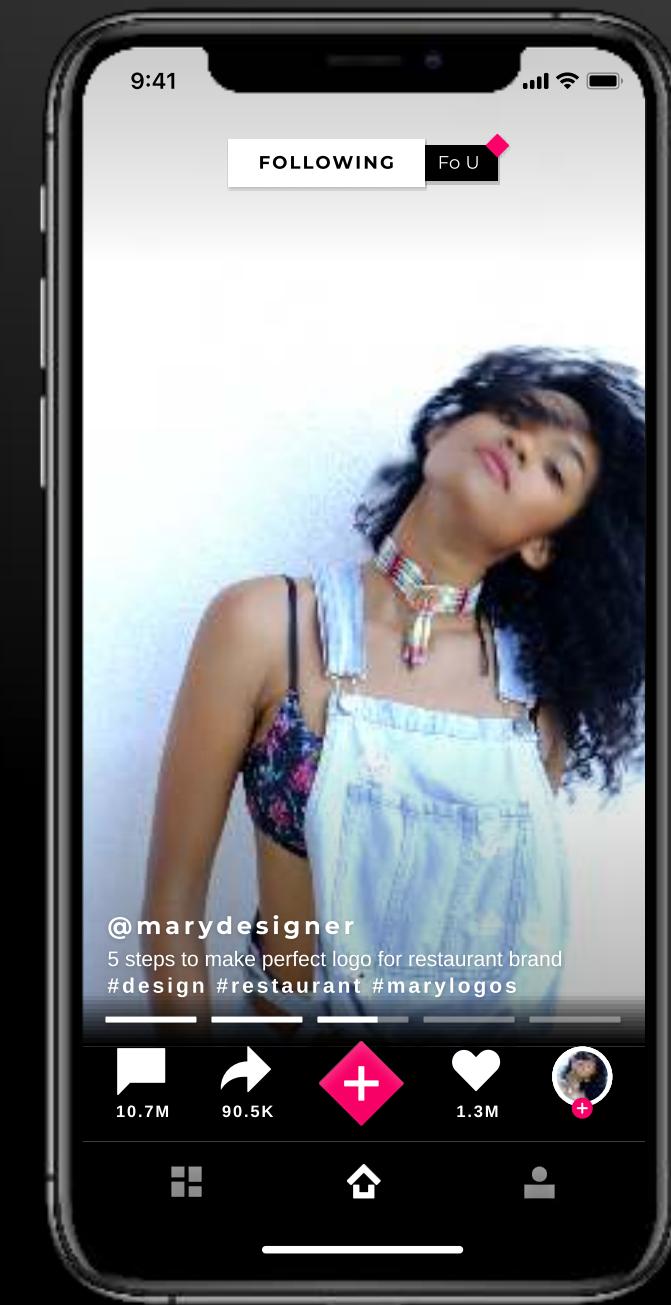

**WELCOME TO
EDUDO APP**

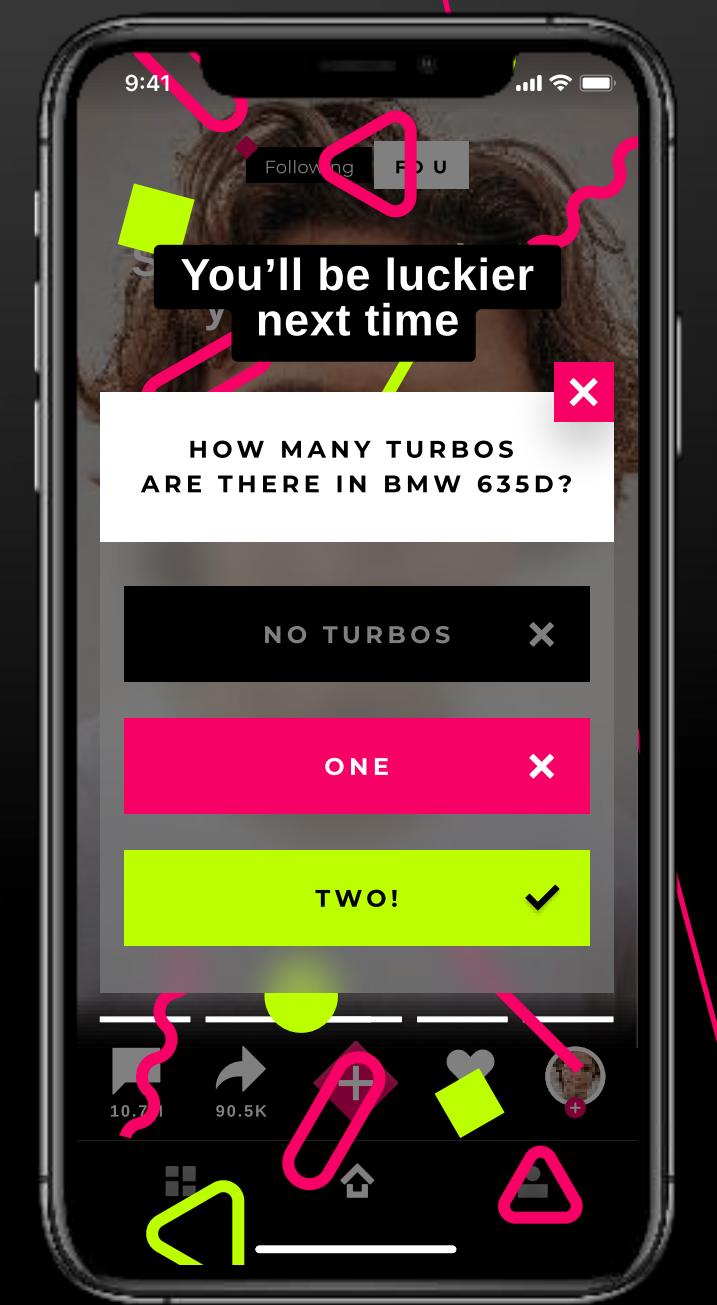

WHAT'S INSIDE?

Now we have 13 content categories: from Beauty and Food to Environment and Business

Videos are divided into Points (stories-like) in order to assimilate information better

Quizzes after every video for memorizing content

Achievements for your activity in the app and possibility to earn in future

EDUDO VALUES

PROBLEM

Modern world is changing so fast that in a blink of an eye old-school approaches are smashed by innovative online schools and tools. It's hard to keep up with the pace of life now, it's like a rat race without the possibility to stop. The future belongs to those, who are ready to be better and skillful in any sphere, from architecture to space technologies.

DECISION

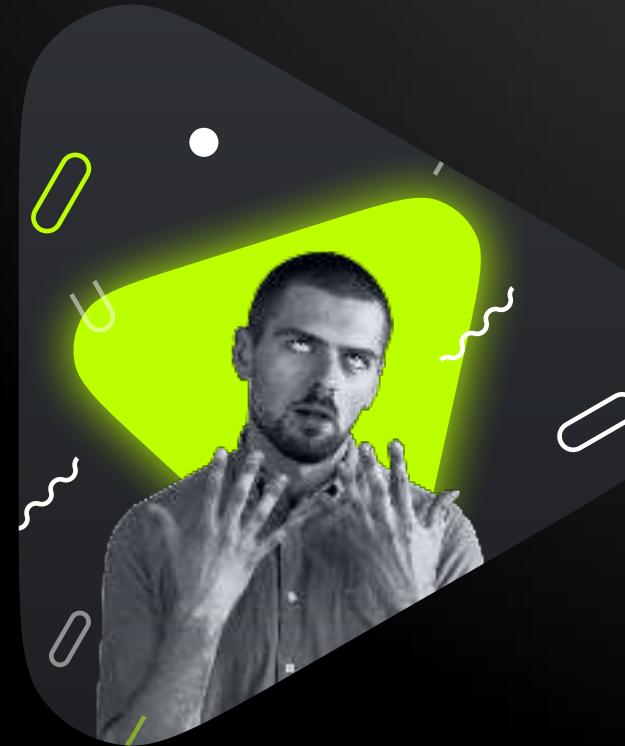

EduDo focuses on making the learning process more optimal in the modern way of living by sharing users' insights. We want to embed this process into daily routine like tooth brushing, cooking or subway ride to save time. EduDo could become useful and developing 'time killer' without feeling guilty to improve yourself in different fields.
